

FACUNDO CABRAL

+51 925 583 205 | facundo.cabral.val@gmail.com |   

Economics undergraduate with solid experience in advanced analytics and data engineering applied to strategic solution design. Specialist in transforming complex data streams into actionable insights and business intelligence dashboards. Proficient in analytical ecosystem tools and Artificial Intelligence, focused on driving operational efficiencies and supporting decision-making.

EXPERIENCE

Data Analyst Feb. 2026 – Jul. 2026

Dirección General de Medicamentos Insumos y Drogas (DIGEMID) Lima, Perú

- Led the development of the “**Observatorio de Farmacovigilancia**”, an institutional dashboard projected for public use, implementing an RPA for data extraction (VigiFlow-WHO) and ETL pipelines that eliminated download restrictions, reducing manual tasks by **80%** and enabling continuous monitoring of ADRs and AEFI.
- Designed macro and microeconomic indicators for out-of-pocket health expenditures (ENAH0-INEI), identifying a structural growing trend since 2012 and the predominance of spending on medicines. Identified critical supply gaps in several regions, driving strategic decisions to optimize the regional supply chain.
- Formulated the technical proposal for a **certification system powered by Blockchain & AI**, presented to the Vice Minister of Health to reduce illicit medicine trade, improve citizen security, and optimize inspectors' operational time and resources, securing **+\$50K USD** in funding.

Teaching Assistant Feb. 2026 – Present

Universidad Nacional Mayor de San Marcos Lima, Perú

- Assisted Mg. Marvin Padilla in teaching Econometrics classes to +100 students.
- Developed class notes, presentations, and applied practical case studies and programming exercises in Python and R for econometric modeling.

Engineering & Data Intern Jun. 2025 – Oct. 2025

BBVA Lima, Perú

- Developed dashboards in Looker Studio for analyzing and monitoring KPIs of bank loans (**+\$18M PEN**) and consumer loans (**+\$15M PEN**), enabling performance audits of third-party metrics.
- Designed an ETL pipeline in Python to process **+50K** records related to Net Promoter Score (NPS) calculation in operations departments, automating data ingestion and reducing manual workload by **+2 hours**.

EDUCATION

B.S. in Economics | concentration in Financial Analysis Oct. 2021 – Present

Universidad Nacional Mayor de San Marcos Lima, Perú

- **Academic Performance:** Outstanding Student. **5th in class**. GPA: 4.07.
- **Key Coursework:** Statistics, Econometrics, Microeconomics, and Microeconomics.
- **Honors:** Invited by academic merit to the breakfast presentation of the XXVII PEXT SBS.

Techy Winter Lab – Cohort I Sep. 2025 – Ene. 2026

Techy Data Science School Lima, Perú

- **Ranked 5th in class.** Selected as one of 17 scholarship recipients (**<15% acceptance rate**) for a Data Science Bootcamp designed to boost the technical skills of public university students. Received intensive training in Python, ranging from programming fundamentals to advanced Machine Learning.

LEADERSHIP & IMPACT

Mentor, Techy Data Science School Mar. 2026 – Jun. 2026

- Supported the tracking and technical skill development of 4 scholarship recipients in the Techy Women 2026 program. Taught EDA processes, data visualization, insights generation, AI applications, and corporate-style presentation delivery.

AWARDS & SCHOLARSHIPS

- **1st Place Winner**, Datathon Sunass 2nd Edition– Commercial Category, Costa Centro Macro-region (2026).
- **Top 4 Finalist**, **Hackathon Rímac 2025** –Healthcare & Data Challenge (2025)
- **PMESUT Scholar**, English language proficiency improvement program. Completed coursework at Idiomas PUCP, achieving a B1+ level.

ADDITIONAL INFORMATION

- **Software:** Python, R, Stata, SQL, Excel, PowerPoint, Git/GitHub, Looker Studio, Power BI.
- **AI & LLMs:** Gemini, Claude y Cursor.
- **Languages:** Spanish (native), English (B1+).
- **Interests:** Mountain hiking, musical and literary composition.
