

# FACUNDO CABRAL

+51 925 583 205 | facundo.cabral.val@gmail.com |   

Economics undergraduate with a solid background in advanced analytics and data engineering applied to strategic decision-making. Specialized in transforming complex data streams into actionable insights and business intelligence dashboards. Proficient in the analytics ecosystem, with a strong focus on driving operational efficiencies and data-driven outcomes. Demonstrated leadership, strong commitment, and high learning agility.

## EXPERIENCIA

**Data Analyst** Feb. 2026 – Jul. 2026

**Dirección General de Medicamentos Insumos y Drogas (DIGEMID)** Lima, Peru

- Led the development of the “**Observatorio de Farmacovigilancia**”, an institutional dashboard with future public-facing projection, implementing an RPA for data extraction (VigiFlow-WHO) and ETL pipelines that eliminated download constraints, reducing manual activities by 80% and enabling continuous monitoring of ADRs and AEFI.
- Designed macro and microeconomic indicators for out-of-pocket healthcare expenditure using ENAHO-INEI datasets, identifying a structural downward trend since 2012 and a predominance of spending on medicines. Identified critical supply bottlenecks across several regions, driving strategic decisions to optimize the regional supply chain.
- Formulated the technical proposal for a Blockchain-based certification system presented to the Vice Ministry of Health to curb illicit medicine trade, enhance citizen safety, and optimize the operational time and resources of the inspection team, securing +\$50K USD in project funding.

**Teaching Assistant** Feb. 2026 – Present

**Universidad Nacional Mayor de San Marcos** Lima, Peru

- Assisted Professor **Marvin Padilla, M.Sc.**, in delivering Econometrics lectures for a cohort of +100 students.
- Developed lectures notes, academic presentations, and practical case studies, implementing programming exercises in Python and R for econometric modeling.

**Data & Engineering Intern** Jun. 2025 – Oct. 2025

**BBVA** Lima, Perú

- Developed a Looker Studio dashboard for analyzing and monitoring banking loan KPIs (PEN 18MM+) and consumer loans (PEN 15MM+), enabling performance auditing of third-party vendor metrics.
- Designed an ETL pipeline in Python to process over 50K+ records for NPS (Net Promoter Score) calculation across operations hubs, automating data ingestion and reducing manual workload by over 2 hours daily.

## EDUCATION

**Bachelor of Science in Economics** Oct. 2021 – Present

**Universidad Nacional Mayor de San Marcos** Lima, Peru

- Academic Performance:** Outstanding Student. **Ranked 5<sup>th</sup> in the cohort.** GPA: 4.07.
- Core Coursework:** Statistics, Econometrics, Macroeconomics, and Microeconomics.
- Research:** Socioeconomic Determinants of Suicide Rates in South Korea.

**Techy Winter Lab – Cohort I** Sep. 2025 – Ene. 2026

**Techy Data Science School** Lima, Perú

- Ranked 5<sup>th</sup> in the graduating class.** Selected as one of 17 fellows (<15% acceptance rate) for a highly selective Data Science bootcamp tailored to top students from public universities. Completed rigorous training in Python, spanning from programming fundamentals to advanced Machine Learning.
- Mentored by Randy Loayza (Economist, PUCP), refining technical domain expertise and career path alignment.

## LEADERSHIP & IMPACT

**Capstone Project Advisor, Techy Data Science School** Mar. 2026 – Jun. 2026

- Guided and accelerated the technical skill development of 4 female fellows in the Techy Women 2026 cohort.
- Taught Exploratory Data Analysis (EDA), data visualization, insight generation, AI applications, and corporate-style presentation delivery.

## AWARDS & SCHOLARSHIPS

- Winner, **Datathon Sunass 2<sup>nd</sup> Edition**– Commercial Category, Central Coast Macro-region (2026)
- Top 4 Finalist, **Hackathon Rimac 2<sup>nd</sup> Edition** –Data & Healthcare Challenge (2025)
- PMESUT Scholar**, “Programa de mejora del dominio inglés”. Completed advanced courses at Idiomas PUCP, achieving a B1+ CEFR level.

## ADDITIONAL INFORMATION

- Technical Skills:** Python, R, Stata, SQL, Excel, Power Point, Git/GitHub, Looker Studio, Power BI.
- Languages:** Spanish (native), English (B1+).
- Interest:** Mountain trekking, literary and musical composition.
